HOUSE TALKS LICENSE LAW

Progress of Bill for Survey for a Dam on the Piscataqua

Concord, April 2.—The house started in to do business this morning and got into a wrangle over Representative Doe's proposition to require residence of a liquor license holder in the town where he does business under the license. Finally a division was taken and adjournment forced by the lack of a quorum.

The Senate did no business except some unimportant routine.

The Piscataqua dam survey bill was forwarded another step yesterday afternoon, as told in the session reports, and is believed to be a certainty.

Senate Thursday Morning

The senate came to order at eleven o'clock with President Lord in the chair. Prayer was offered by Chaplain Fraser of the house.

Revision of the laws. H. B. 615 to legalize a special town meeting held in Warner, March 2, 1909. Favorable. Passed under a suspension of the rules on motion of Senator Chase.

On motion of Senator Turner the reading of the committee reports was

temporarily suspended to allow consideration of a message sent up from the house.

H. B. 578 to establish a normal school and appropriate money for the same, and to provide for its maintenance. To judiciary.

S. B. 15 for a direct primary, as amended by the house, was taken up. Senator Bass as the author of the original bill, discussed its great features and subsequent amendments.

Senator Turner moved that the senate refuse to concur with the house in the amendments and that a committee of conference be named to meet a committee of the house to consider additional amendments.

The motion prevailed and the president named as the committee on the part of the senate, Senators Turner, Hurd and Bass.

Senator Hurd moved to concur in the resolution adopted by the house for final adjournment April 9.

Senator Chase thought the business of the legislature had not reached a stage when a date of adjournment could be intelligently appointed at this

time. He moved to lay the resolution on the table. If it should develop later that adjournment could be taken April 9, the resolution might be recalled later.

Senators Entwistle and Parker supported the motion to concur.

Senator Bass believed it impossible to foretell the condition of business in the legislature next week and thought the resolution should not pass.

Senator Rice also hoped that the senate would not immediately concur.

Senator Stahl said, "It was high time" the legislature adjourned.

Senator Hamlin demanded a roll call in the motion to lay the resolution on the table, the vote resulted 12 to 9 against the motion.

The senators voting yes (not to adjourn) were Edgerly, Rice, Hamlin, Patch, Geer, Adams, Martin, Bass, Ahern; no, Stahl, Calley, Wallace, Lee, man, Clough, Lord, Parker, Patten, Sanborn, Hurd, Emery, and Entwistle.

Senators Chase and Turner were paired.

The motion to lay the resolution on the table being defeated, a motion to concur was easily carried.

Roads, bridges and canals. H. B. 558 empowering the town of Lancaster to build a bridge. Favorable. To a third reading.

Banks. H. B. 538 to incorporate the St. Mary's Credit association. Favorable. To a third reading.

Revision of the laws. H. B. 601 empowering the town of Alton to maintain public wharves.

Long Jaunt Tuckered Some of the Marines

Kittery, Me., April 2.

Alonzo Hearn is on a visit to his parents from college life at Dartmouth, this being the usual spring vacation.

The many friends of Oliver Moody are sorry to hear that he is suffering from an attack of the grip to add to his already long illness.

The body of marines who took such a long jaunt on Thursday were a tired and rather dazed looking lot when they passed through town about four o'clock on their way back to the navy yard. About an hour later a few stragglers who had been obliged to drop out and take their time in getting home, were seen coming in, but, everything considered, they certainly made a very pretty sight.

When the schools in town open on Monday next there will be a new teacher at the Mitchell grammar school, one at the Mitchell intermediate, one at the Austin grammar, one at the Shapleigh and one at the Westworth school.

A rehearsal of the Choral Society was held on Thursday evening in the vestry of the Second Christian church. There was a good attendance and the hard work being put in by the members shows that the society is appreciated and that a little later we may look for some fine singing. It is expected that the cantata now being rehearsed will before long be given. New members are constantly joining, which is good news.

Miss Charlotte Bickford and Rev. Edward H. Macy both sang vocal solos on Thursday evening at the bazaar given by the Universalist church in Portsmouth.

The Ladies' Sewing Circle of the Second Christian church was very pleasantly entertained on Thursday afternoon by Mrs. J. Edgar Burnham at her home on Woodlawn avenue.

And now it is Turnkey Oliver P. Philbrick in Portsmouth. Kittery certainly furnished a good man.

Mr. and Mrs. Charles Rudolph entertained the whist club at their home on Lotts avenue on Wednesday evening.

Mrs. Ned Paul and son Howard are enjoying a visit with relatives in York. Mr. and Mrs. Herman Paul of Lotts avenue are enjoying a week at visiting in Massachusetts.

Miss Helen M. Langton is the guest of her cousin, Miss Hattie M. Langton of Government street.

At the surprise party and donation given on Wednesday evening to Mrs.

Marla Tilton and Miss Abbie Young by a number of friends. Miss Hattie M. Langton sang two solos. Miss Ruth Young played on the piano. Helen Kramer also sang. Speeches were made by Mr. Alexander Bennett, Mr. James R. Philbrick and the presentation speech of the purse of money was made by Mr. Edwin A. Duncan. Altogether a very enjoyable evening was passed.

Mr. J. Edgar Burnham has been very fortunate of late in his fishing trips and has been catching cod that weigh six pounds and over right along.

Mrs. M. O. Langton of Kittery Point, who has been sick for some time, seems to be improving slowly. Her daughter, Mrs. A. M. Burke of South Carolina, is now with her.

A recital was held at the home of Mr. and Mrs. W. H. Tobey at Kittery Point to celebrate the tenth birthday anniversary of their little daughter Dorothy. At the close of the program Miss Mildred Heaney, in behalf of the class, presented Dorothy with a music roll and a gold signet ring. A pleasant hour was spent in playing musical games. Dainty refreshments of ice cream, assorted cake and wafers were served and a beautiful birthday cake of which each received a slice. Mr. and Mrs. Tobey and Miss Dorothy were voted royal entertainers. The program, given by members of the music class of Mrs. Amy Fernald Philbrick, was as follows:

Lowney, chairman, F. L. Carter, Edric Eldridge, Paul Fitzpatrick, W. A. Flanders, H. G. Ruhe and G. O. Sheldon.

MILITARY PUNISHMENT

For the Marines Who Went on the Rampage a Few Nights Ago

The police have been informed by the officers of the marine corps at the naval prison that they will handle the case of the three marines who, a few nights ago, got busy destroying property about the city and on the Portsmouth and Kittery bridge.

The owners of the damaged property have been requested to forward bills for damages to Major Leonard and every cent called for will be paid and the guilty parties severely punished.

Regarding such actions on the part of a few fly men among the corps, Major Leonard says he will bring it to an end and is working in the right way to do it. He does not intend that the good men of his command shall suffer for the acts of a bunch of rowdies or that the public be bothered by these men.

After these three have been punished for this job they will no doubt be sent away to another station according to the plan of the Major, who says there will be no "bad ones" allowed to remain here.

EVENTS OF ELIOT

Little Avis Spinney Since the Surgical Operation

Resignation of a Minister Well Known in Eliot

Eliot, Me., April 2.

Miss Winifred Dixon is at home for a short vacation from her studies at the Western Maine Normal school, in Gorham.

The John F. Hill Grange will work a large class in the first and second degrees at the next meeting, April 12.

Little Avis Spinney is holding her own since the severe surgical operation of Wednesday.

Albert S. Spinney has begun finishing of the second story of his house. The family has been somewhat crowded by living on a single floor since they got into their own home.

It is learned that Rev. C. M. Seamans, pastor of the Adventist church in Dover tendered his resignation to the church society at the close of the services last Sunday morning. He gave no definite time, however, the resignation would take effect. It is not known that he has any other pastorate in view at this time. Mr. Seamans has frequently preached at the South Eliot Adventist church and recently gave a fortnight of stereoscopic lectures on the life of Christ. He has been located at Dover two years.

Asher Damon and family are to move from Mrs. E. A. Welch's house at South Eliot, to Kittery.

Kuse, Frank, open boat, 2 h. p. Auto-Marine.

Keen, Howard, speed launch, 4 h. p. Atlantic; building, a speed launch, 12 h. p. Atlantic.

CARS TO EXETER

Will Be Run This Summer

The cars of the Portsmouth and Exeter street railway will run this summer. This was confirmed by President U. A. Belden, of the New Hampshire electric railway, to the Herald today.

The company is negotiating with a new party for a sale of the road, but nothing definite has been reached.

Mr. Barker of Stratham, who talked of buying the road, has given up any further negotiations regarding the purchase of the line.

"SMOKED BEEF REBELLION"

Oklahoma Authorities Have It Well In Hand

CRAZY SNAKE NOT CAUGHT

Commander of Militia Tries to Get Information of Chief's Whereabouts From His Sister, but Is Unsuccessful—Territory in Which He May Roam Is Too Large For the Soldiers to Cover Thoroughly

Pierce, Okla., April 2.—What a Muskogean newspaper calls the "smoked beef rebellion" is all but over. In a day or two the militia, it is expected, will be withdrawn. McIntosh county will feed nearly a hundred prisoners, not one of whom resisted arrest, and Chittani Marjo, otherwise Crazy Snake, will exercise all due caution about appearing in public. He has not been captured, neither has he responded to a widely distributed invitation to surrender. The picturesque posses have quitted the hunt, leaving the field to the first regiment, Oklahoma National Guard. Colonel Hoffman sent squads through the river bottoms and previously unexplored gulches in this vicinity, while Major Barrett, spreading his men, advanced like a comb through the Hickory woods. Crazy Snake, however, was elsewhere.

Meanwhile Hoffman held a long pow-wow with the fugitive's sister. The interview took place at Crazy Snake's former home on a swell of prairie which the Creek leader disdained to cultivate. The Snake place is a one-room shanty with a rickety porch and big chimney, like those of southern negro huts. The ground around it has never been ploughed and lean dogs yelp amid the weeds.

The Indian leader's sister and the militia chief met on the porch informally, but the former succeeded in convincing her questioner that she knew nothing of her brother's whereabouts. "Very well," responded the colonel, "it is up to him. He has twenty-four hours in which to put himself under our protection. He should do it, as the next step probably will be the offering of a reward for him, dead or alive."

Colonel Hoffman admitted that he did not know whether his ultimatum would ever reach its real objective point. But he had his suspicions, as somebody undoubtedly is taking food to the old chief, along with the news of the day.

It is admitted that the wily red man has eluded his pursuers. He controls his own destinies so long as he chooses to remain hidden. The territory in which he may roam is too large for the military to cover thoroughly, which both pursuer and pursued know well.

Crazy Snake may conclude at the last moment of military occupancy to give himself up, but it is the general belief that the old warrior will do nothing of the kind. It is regarded as more likely that he will wait until public excitement has subsided and then emerge from his hiding.

ZEPPELIN UNDAUNTED

Driven Far Out of Course In Eleven-Hour Trip In Airship

Munich, April 2.—The Zeppelin airship made an attempt to fly from Friedrichshafen to this city and back. It encountered a storm and was driven far out of its original course, and, after eleven hours in the air, landed safely at Dingolfing, sixty-five miles northeast of Munich.

The airship will remain at the landing place at Dingolfing until the wind abates. It was not damaged in the hurricane and no one was injured.

It is understood that Count Zeppelin will make the return voyage to Friedrichshafen by way of Munich.

FIVE ARRIVE AT ONCE

Big Increase of Babies in North Carolina Farmer's Family

Winston Salem, N. C., April 2.—The wife of James Turner, a farmer living in Forsyth county, yesterday gave birth to five children, three boys and two girls.

The weight of the babies ranges from four to six pounds. All are thriving and the mother is doing nicely.

Mishap on French Liner

New York, April 2.—The French transatlantic liner La Touraine was crippled by the bursting of the main steam pipe of her port boiler and was compelled to abandon her voyage to Havre. Two of her officers were frightfully scalded, but it is said that they will recover.

King to Meet Roosevelt

Rome, April 2.—The Tribune publishes a rumor that King Victor Emmanuel will either meet Theodore Roosevelt in the straits of Messina or take Roosevelt to Sicily on board an Italian battleship.

Rubber Factories Shut Down

Poston, April 2.—The factories of the Boston Rubber Shoe company in Malden and Melrose have shut down for two weeks, and possibly a longer period. The closing affects 2300 persons.

BURIED IN THE CELLAR

Aged Couple Murdered and House Filled to Conceal Crime

Toledo, April 2.—In finding the bodies of Ludwig Krueger, aged 66, and his wife, aged 63, buried in the cellar of their home, which was destroyed by fire Thursday, the Toledo police are confronted by a puzzling murder mystery.

Two boys were digging in the ruins of the cellar and noticed that the brick floor had been tampered with. One of them raised a brick and the face of the dead woman was revealed. More of the floor was taken up and the body of Krueger was found buried with his head at the feet of his wife. Both had been stabbed to death.

It is not known when the murder occurred, as the Kruegers were last seen alive on Tuesday evening by M. Soboleski, a tailor, who last Saturday paid Krueger \$2000 as part payment of the purchase of a farm.

At midnight, at the end of four hours' quizzing, Soboleski, who purchased the Krueger farm, was held for further investigation. He was locked up.

SCULPTOR GOES TO JAIL

Refused to Pay \$1000 Alimony as Ordered by Divorce Court

New York, April 2.—Because he refused to pay his first wife's alimony to the amount of \$1000, Roland H. Perry, a sculptor and painter, was committed to jail for a six months' term.

By going to prison Perry is relieved of the alimony obligation, or at least of the imprisonment, as the penalty for failure to pay, as the state laws provide that six months is the limit of jail confinement for the delinquency.

In 1906 Perry was divorced from Irma H. Perry and later married Mrs. May H. Fisher. He claimed inability to pay alimony as the divorce court ordered.

IN COMPETITION WITH WESTON

Sergeant Walsh Starts From Boston on Walk to 'Frisco

Boston, April 2.—Sergeant John Walsh, who arrived in Boston after having completed a walk from Boston to San Francisco and return, a distance of over 7700 miles, in 156 days, started off after taking but a few hours' rest, to repeat the performance.

Walsh started from Boston on Aug. 12, 1908, and arrived in San Francisco Oct. 23, according to his statement. He declared that he should make the present trip a competition with Edward P. Weston, who started from New York last week on a trip to the Pacific coast, whom Walsh expects to overtake.

Walsh is 57 years of age and has spent 27 years in the army. He is on furlough.

APATHETIC INDEED

Cubans Take No Notice of the Departure of American Troops

Havana, April 2.—Not a ripple of public interest attended the final evacuation of Cuba by the last detachment of American troops. As the transports McClellan and Sumner steamed down the harbor the only recognition of their departure was by the German cruiser Bremen, which dipped her ensign, and by the American merchant steamships, which sounded their whistles.

The sea walls around Havana, which were thronged with 100,000 persons to witness the departure last year of a small Spanish training ship, were deserted yesterday, except for a small group of Americans gathered at Punta Castle.

The complete apathy of the Cubans on such an important occasion is the subject of much comment.

FRIENDSHIP RESTORED

Austria-Hungary Satisfied With the Note From Serbia

Belgrade, April 2.—The final step in the conclusion of the difficulty between Austria-Hungary and Serbia was taken when Count Forgach, the Austro-Hungarian minister here, delivered to the foreign office his government's acknowledgment of the Serbian note accepting the solution of the trouble as proposed by the powers. In this communication the dual monarchy sets forth its satisfaction at the resumption of normal and friendly relations with Serbia.

Encouraging to Footpads

San Antonio, Tex., April 2.—Justice Fiske, in a local court, ruled that a holdup with a revolver is not a robbery, unless the footpad secures money from his victims. Two men arrested for holding up a man on the street here were released.

Oil Fields to Shut Down

Tulsa, Okla., April 2.—A four months' shut down on the Oklahoma oil field has been agreed upon by the mid-continent oil producers associations. Over-production and adverse state legislation are the reasons given.

Duma Adopts Army Budget

St. Petersburg, April 2.—The Duma adopted the army budget of \$250,300,000, an increase of \$21,800,000 over last year.

MAYOR ORDERS AN EXAMINATION

Experts to Probe Books of Baltimore Register

DOWNES HELD IN \$50,000

Young Man a Lavish Spender, Living Far Beyond What His Salary Would Permit—Kept Race Horses and Supported Prize Fighters—Police and Detectives Appear to Have Been Remiss in Their Duties

Baltimore, April 2.—William F. Downes, the clerk in the office of the city register, is still under arrest, charged with embezzlement of funds belonging to the city, and further probing appears to reveal an even worse state of affairs in the city hall than had been expected.

It is charged that on numerous occasions when Downes went to make deposits in the several banks in which the city has accounts he made out deposit slips for sums ranging from \$300 to \$2000 less than the deposits should have been, afterward changing the bank tellers' figures in the bank books to show that the full deposits had been made.

Investigation of the various accounts already shows shortages amounting to \$67,126. Mayor Mahool has engaged an audit company to make a thorough examination of the books of the office of the city register.

After having been released on \$10,000 bail Wednesday, Downes was again arrested late Wednesday night and a warrant was sworn out Thursday charging him with the larceny of \$2800. At the conclusion of this hearing he was held in \$50,000.

Downes is 26 years old and has been twice married, his first wife having died. He has been living in a style very far beyond the means of a \$5000 a year clerk, which he was until recently, when he was promoted to a \$1400 clerkship, much against his will.

His alleged peculations appear to run back to July 1, 1907. He has been known widely as a lavish spender. He kept a couple of race horses, had a quartet of prize fighters regularly in his pay, spent much money on prize fights and horse races, sporting trips out of town and dressed in expensive style. His home is beautifully furnished.

To some of those in whose company he spent large sums of money he is reported to have said that his first wife left him a large fortune, and to others that he won heavily on horse races.

His manner of living is said to have been well known to the police and detectives of the city and to many others, and Mayor Mahool is much exercised because no one has ever told him of it. Others of Downes' superiors in the city hall profess themselves as ignorant as was the mayor.

Downes is bonded in a local bonding company to the extent of \$3000 and City Register Thomas is bonded to the amount of \$50,000. The latter bond, it is claimed, covers any defalcations in the city register's office, but this appears to be in some doubt.

Downes is still in custody, bondsmen for the \$50,000 fixed by Judge Stockbridge not having been secured. It is understood that should they be another warrant will at once be issued and Downes will be held under it.

GOOD AT ANY GAM

Father of Sunday Baseball in Indiana Has a Unique Pass

Indianapolis, April 2.—Thomas W. Broyles of North Vernon, who as a member of the recent legislature, introduced the bill which permits Sunday baseball in Indiana, was asked: "Have you got a pass?"

In reply Broyles pulled from an inside pocket a neat little case containing a card which Broyles said would admit him to any baseball game in the United States.

The card bore the names of the presidents of more than one hundred professional baseball organizations.

A Fertilizer Combination
New York, April 2.—Efforts which have been under way for several months to consolidate about seventy-five of the independent fertilizer companies in the south into a \$50,000,000 corporation have been virtually completed. It is expected that articles of incorporation will be filed at Albany shortly.

Congo Legislation

Brussels, April 2.—The chamber of deputies adopted a resolution to reduce the number of natives employed by the Congo administration, to increase salaries and to pay all salaries in money.

Six Perish in Steamer Fire

Colon, April 2.—A fire broke out on board the steamer Sarnia in some cotton and kerosene between decks, and the quartermaster and five laborers were burned to death.

LOSE GOVERNMENT JOBS

Result of Probe Into Doings of Canadian Marine Officials

St. John, April 2.—As the result of an inquiry into the affairs of the Canadian department of marine and fisheries, nine officials have been dismissed from the service at various points, on the ground that they had accepted money to which they had no right.

Among those dismissed are Commander Spaul, wreck commissioner; J. F. Frazer, commissioner of lights; George D. O'Farrell, inspector of lights; C. Thompson-Schmidt, inspector of government steamers; Captain Kneib of the government steamer Dring; A. E. Bruchman, inspector of dredging; Agent Gregory of Quebec and several lesser officials.

In addition twelve engineers on government steamers are dismissed. It appears it has been the general custom for engineers to accept gratuities from contractors and supply dealers.

ALMOST STARTED A RIOT

Paris Students Have Fun at Expense of Justice of the Peace

Paris, April 2.—The royalist students who recently were condemned to brief terms of imprisonment and small fines by M. Hamard, justice of the peace, for the mutilating of statues and demonstrating in the streets and theatres, ordered 400 wagonloads of merchandise of every description, from pianos to coal, delivered at Hamard's residence.

Almost a riot occurred in front of the Hamard house Thursday when the deliveries began. Traffic was impeded, and the irate drivers were with difficulty induced to depart without leaving their loads.

MEXICO WANTS DIAZ TO REMAIN IN OFFICE

Asks Him Not to Think of Giving Up Presidency

Mexico City, April 2.—Delegates came from all parts of the republic of Mexico to express today to President Porfirio Diaz their loyalty to his administration and to request him not to give up the presidential office at the close of his present term.

PRESIDENT DIAZ.

Today's demonstration was the greatest and most brilliant affair of the kind ever held in Mexico. In the grand parade appeared thousands of men representing the various states of the republic, all dressed in the distinctive garb of their parts of the country. An interesting and striking feature of the parade was the division of aged veterans of the war with France for independence.

The parade ended at the national palace, where it was reviewed by President Diaz. The aged ruler received a delegation of well known men and expressed to them his pleasure at the demonstration. He declared that while health and strength remained to him they would be placed at the service of the republic.

CONVICT LEASE SYSTEM ENDS

Georgia Gives Up the Selling of Her Criminals

WILL WORK ON TURNPIKES

Sixteen Hundred Unfortunates, Most of Whom Are Blacks, Are Released From Life of Practical Slavery and Will Henceforth Enjoy the Sunlight—Change Is Greeted With Shouts of Joy and Hymns of Thanksgiving

Atlanta, Ga., April 2.—The last rag of Georgia's convict system was shaken off Thursday. Throughout the state hundreds of human beings were led from the depths of mines, from clocking kilns, from whirling dark factories—out into good sunlight; from the control of harsh and often brutal taskmasters into the service of the state.

Georgia has no state penitentiary. For years her convicts have been sold into the mines, into the brick-kilns, into the factories, where private greed sometimes demanded and collected its last ounce of human flesh and its final drop of human blood.

But the state decided to abolish this traffic in whites as well as blacks, so, instead of selling its 1600 prisoners, it will work them on the public roads.

The change went into effect yesterday, when the convicts were returned to the counties in which their crimes had been committed. Most of the unfortunates are blacks of a low order of intelligence, sentenced for every conceivable crime.

Though shackled and ironed, the convicts greeted the change with shouts of joy and weird hymns of thanksgiving. Negro preachers were at most of the stockades and led the blacks in their impromptu praise service. Special trains were waiting and the prisoners transferred as rapidly as possible to their new quarters.

Strangely enough, some of the convicts cried on leaving scenes which had been a part of the daily life of some of them for many years.

The new system, it is believed, will not only improve the health of the convicts, but will assure Georgia the finest turnpikes in the south.

PASTOR HAD NO WIFE

Baltimore, April 2.—Rev. Edward Barber of the Methodist Episcopal church south, who has been in charge of Emmanuel church, near Laurel, Md., came to Baltimore to attend the conference of his brethren, and to see if it were possible to get another church on a circuit in Virginia.

"Now, brother," said the presiding elder, "if you were married, you would fit that place, but unmarried you had better not have it. That post is for a married man."

Without loss of time Barber got into communication with Laurel, and in a few hours Miss Alta M. Welsh, 18 years old, was on her way to Baltimore.

Upon her arrival a marriage was promptly celebrated. Last night Bishop Chandler gave the desired post to the enterprising minister.

Girl's Clever Tactics Enabled Brother to Escape Law's Clutches

They were met by Miss Nellie Easley, the deserter's sister, who was entertaining Ray Schneider, her sweetheart. She burst into tears, embraced Schneider, calling him "Frank," and cried out that also could not let them take him away.

Easley was in the next room and overheard all that was said. Schneider was led away and the sister followed him to the front gate, sobbing. Over three miles of rough country road the officers led Schneider to the East Alton, Ill., jail and locked him up.

When he thought there had been sufficient time for his sweetheart's brother to escape he told them who he was and proved his identity. The officers trucked back to the Easley home and found that Frank had fled.

BOYS FIRED INTO OPEN WINDOWS

Started Off on a Freight Train on a Hunt For Indians

Boston, April 2.—Open windows of dwelling houses in villages along the Boston and Albany railroad were used as targets by three Brighton youths, who, armed with a rifle, boarded a freight train on their way to the west, where, as they described it, they intended to help run Crazy Snake to earth.

The Natick police, upon receipt of a telephone message that someone on a freight train had shot at a citizen of Wellesley, flagged the engineer. Two lads jumped from the train, but were arrested.

After the train had started the conductor found a third boy hiding in a coal car. The boy had a rifle in his hands and was turned over to the police when the train reached Framingham.

The boys were John O'Connell, aged 13; Davis Blanchard, 14, and Frank Mannix, 14. They admitted that they had been reading cheap novels.

Chief operator Robert J. Simpson of the U. S. wireless station at the navy yard, gave a most interesting talk on wireless telegraphy at the regular monthly meeting of the Portsmouth Yacht club last evening.

Mr. Simpson is well qualified to talk on this subject for he has seen it develop from the crude affair of a few years ago to its present efficiency. He gave an interesting history of the work and of the marvelous development that has been made in the past few years, and predicted that there was still great improvements to be made.

Following the lecture refreshments were served.

MOSES IS A GREEK SCHOLAR

Says the Washington correspondent of the Boston Globe:

When George H. Moses of Concord N. H., whom the president has nominated as minister to Greece, graduated from Dartmouth college, he was noted as one of its foremost Greek scholars.

Naturally he ought to have become a professor of Greek or have written a ponderous book on the Greek epic, which no one would read, but instead he went into newspaper work and politics and for years has been one of the most active politicians in New Hampshire. But he has remained true to his first love, and while journalism has been his vocation and politics his diversion, the great passion of his life has been Greece, her art and its literature.

Mr. Moses wanted to be made minister to Greece under the last administration, but President Roosevelt looked coldly upon such "practical" politicians as Senator Gallinger and Mr. Moses.

Senator Gallinger was not an original Taft man; he was frankly a Fairbanks man and made no concealment of that fact, but that did not interrupt the long friendship that had existed between him and the president, and when Senator Gallinger asked for Mr. Moses' appointment his request was complied with.

It is not unlikely that the "reform" element in New Hampshire republican politics may object to Mr. Moses' appointment, but that will not interfere with his confirmation, as the appointment is satisfactory to both the New Hampshire senators. In addition to his knowledge of Greek, Mr. Moses is a man of ability and experience and knowledge of the world, who is bound to be as successful in a diplomatic capacity as he was when secretary to the governor of New Hampshire or as he has been in politics or journalism.

Mr. Moses is managing editor of the Concord Evening Monitor. He has been connected with that newspaper for many years, having been on its staff practically since his graduation from Dartmouth college. He has been a prominent figure in New Hampshire political life since his college days, although the only offices he has held have been those of private secretary of Governor D. H. Goodale during the term of that executive, and secretary of the state board of forestry commission.

He was an alternate to the last national republican convention at Chicago and in place of ex-Governor C. B. Jordan served on the committee on resolutions. He is 38 years old and has a wife and one child.

DOVER DOINGS

R. M. Handy and wife, the former superintendent of the Strafford farm, left Thursday for Brewster, N. Y., where they will make their home in the future. Mr. Handy, who has had considerable experience in the handling of blooded stock, will assume control of a large stock farm in that section. Superintendent and Mrs. Edward Willard took charge of the big family at the farm Thursday morning.

A warrant was sworn out today against George Bassett charging him with being an idle person and he was taken into custody by Marshal James B. Adams.

The philanthropy department of the Dover Women's club held a whist party in Central hall on Thursday afternoon and the affair will go on record as one of the most successful of its kind which has been held in the

city for some time. A large delegation from out of town were present and it was conceded that the attendance was the largest that a whist party by the club ever drew. The proceeds of the event will be given to the District Nurses' association and the sum realized will materially increase the previous amount given by the entire club.

The city council has named a committee to locate and secure a site for a public playground. The committee includes Mayor Foster, President Richardson of the common council, Alderman Pemberton and Councilmen Kittredge and Killeen.

The case of Mrs. Willis McDuffee of Rochester vs. Charles H. Fish, former president of the Dover Choral society which has been on trial this week in the superior court at Dover, before W. A. Phummer, came to a close. The suit for \$100 against Mr. Fish was brought to recover for services rendered and expenses incurred in the production of the opera of "Robin Hood" at the Dover opera house May 21 and 22, 1908. Mrs. McDuffee took the leading part in the opera, that of Maid Marian. She testified that when consulting with Mr. Fish in his office about taking the part no remuneration was specified, but she expected a liberal and generous compensation, and she did not sing without pay except in charity cases. She alleged that she had attended many rehearsals at great inconvenience and expense, had taken a trip to Boston at her own expense to be measured for her costume, and never but once was provided with a place of accommodation at Dover for the night, even on the nights of the performance. She had expended nearly \$50 in cash by reason of the performance. After waiting nearly six weeks for her pay Mr. Fish wrote her that he had never intended to repay her, but had thought that she was giving her services. At the conclusion of the testimony a conference between judge and counsel was held, and finally a settlement of the case was made, by which the Dover Choral society is to pay the face of the bill, together with money actually paid out by the plaintiff for costs, and the suit came to an end. Leslie P. Snow of Rochester appeared for the plaintiff and Kivel and Hughes and Dwight Hall of Dover for the defendant.

NOTHING PRIVATE IN CONVERSATION

Hamblett Willing for Public to Know What He Said

Concord, April 2.—When asked by a Herald reporter if he would say anything relative to the affidavits presented in the House of Representatives on Thursday, Gen. Charles J. Hamblett said:

"Yes, my attention has been called to these affidavits, and appreciating the fact that they were given by members of the House of Representatives, who are clothed with privileges which I do not possess, it is my duty, in justice to myself and the client I represent, to state to the members of the Legislature through your columns that the conversation referred to was not with Mr. Ryder, but with Mr. Lucius Tuttle, and related wholly to a proposed amendment to the pass bill that had passed the House of Representatives without contest, and in this connection nothing was considered except the amendment which related to the introduction of the word 'families' so as to provide for the families of the officers of foreign roads, except that at the close of the conversation, which lasted less than three minutes, I told him that the tax commission bill passed the House the day before by a majority of 61."

"These gentlemen are in error as to the other portions of the conversation they attribute to me, as I have stated all that was said. The conversation occurred in a public place, in a public telephone booth with the door ajar, and nothing was said that I am not willing the public should know. These affidavits were a surprise to me, as I had no notion that they were to be offered, but I am entirely willing to leave this whole matter to the fairness of the members of the House of Representatives."

The most energetic methods are being adopted to ensure success. A part from the personal self denial of the soldiers and friends of the Army appeals are being printed and distributed from home to home in order to obtain donations; while bands in many cases will play in public places in order to swell the funds. "Limic" challenges all comers to fish stories. Have him tell you about the whale.

The girls want to beware of a certain "Red" aboard this ship. They say he is quite a heart breaker. Curly hair, too.

The navigators yeoman is going to break out his "new" suit. Take care, girls, he is the \$10,000 beauty.

Everyone is glad to have the after bridge bunch on deck again. One of the signal boys is "stark" mad at washing paint work.

Seaman Swanson contemplates visiting the probate judge this coming pay day.

Who said chicken? Was it Dickey?

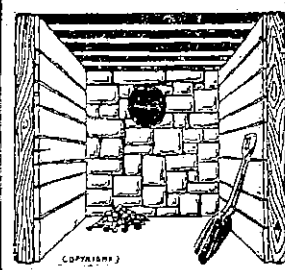

Smoking lamp being lit at all hours, the boys are having a great time. Nothing for Lyons to do now.
